# EUROPOWER PMP530M

Ultra-Compact 300-Watt  
5-Channel Powered Mixer with  
Multi-FX Processor and  
FBQ Feedback Detection System

- Compact and rack-mountable 300-Watt powered mixer with Multi-FX processor
- Revolutionary Class-D amplifier technology: enormous power, incredible sonic performance and super-light weight
- Ultra-compact design at nearly half the depth and weight of conventional powered mixers means no more lugging around dead weight
- Ultra-low noise ULN design for highest possible headroom and ultra-transparent audio
- 5-channel mixer section features 5 mic/line channels plus separate CD/Tape input/output
- Integrated 24-bit digital FX processor with 100 awesome presets including reverb, chorus, flanger, delay, pitch shifter and various multi-effects
- Revolutionary FBQ Feedback Detection system instantly reveals critical frequencies for easy feedback removal
- 5 high-quality mic preamps with switchable Pad and Clip LEDs
- Effective, extremely musical 2-band EQ on all channels
- 7-band graphic EQ allows precise frequency correction
- 3 speaker outputs on 1/4" jack and professional speaker connectors

The amazing PMP530M Powered Mixer packs 300 Watts of rock-solid output, while maintaining an incredible power-to-weight ratio. These mixers employ high-efficiency Class-D technology and a state-of-the-art switch-mode power supply, which significantly reduces weight and heat.

The 5-channel PMP530M features 5 high-quality mic preamps, a studio-grade 24-bit Multi-FX processor with 100 awesome presets including studio-class reverbs, delays, pitch shifter and various multi-effects, plus a 7-band graphic EQ with our proprietary FBQ Feedback Detection System – for the ultimate in feedback-free performance.

## PMP530M

Ultra-Compact 300-Watt  
5-Channel Powered Mixer with  
Multi-FX Processor and  
FBQ Feedback Detection System

- Internal switch-mode power supply, noise-free audio, superior transient response and very low power consumption
- Rack mount brackets included
- High-quality components and exceptionally rugged construction ensure long life
- Conceived and designed by BEHRINGER Germany

### Class-D - Massive Power, Perfect Sound

Thanks to our revolutionary Class-D amplifier technology, we are able to provide you with enormous power and incredible sonic performance in an easy-to-use, ultra-portable and lightweight package. Class-D amplification makes all the difference, offering the ultimate in energy efficiency and eliminating the need for heavy power supplies and massive heat sinks. This amazing technology makes it possible to design and build extremely powerful products that are significantly lighter in weight than their traditional counterparts, while using less energy and protecting the environment.

### All-In-One Solution

The PMP530M delivers 300 ultra-clean Watts of powerful mono output, more than enough for most intimate gatherings. Whether the center of attention happens to be a folk trio, a speech or the men's choir for a special occasion, the PMP530M can accommodate with ease. This sonic versatility also makes it an excellent choice for churches, where vocals and stereo recordings often share face time.

Multi-FX Processor and  
FBQ Feedback Detection System

### Built-in Digital Multi-FX Processor

Equipped with our studio-grade 24-bit Multi-FX processor, the PMP530M mixer gives you 100 mind-blowing digital effect presets such as delay, chorus, reverb and much more. Apply them to any channel, as well as to the monitors and main output. Of course, if you have treasured outboard gear you've grown attached to, these mixers can integrate them into the mix while bypassing the built-in FX processor.

### FBQ - Totally Feedback-Free

For more than 20 years, BEHRINGER has designed and manufactured some of the most successful FBQ Feedback Elimination processors. Now you can own and enjoy the benefits of this technology, as we have integrated the revolutionary FBQ Feedback Detection System into this product, so your sound system is completely feedback-free, allowing you to focus on your performance. Utilizing an ultra-fast feedback detection system, this ingenious circuitry helps you recognize and tame feedback frequencies immediately. When feedback is sensed in a specific frequency range, the LED on the associated EQ fader illuminates, showing you at a glance which fader to lower to overcome the feedback. That simple!

### Getting Connected

Use the CD/Tape RCA inputs to feed in external stereo signals; conversely, the CD/Tape RCA outputs send line-level signals from the mixer to a recording device. The left and right output 1/4" connectors can be used for a variety of purposes, including connecting to additional power amps. Connect your monitor power amps or active monitor speakers to the Monitor Sound output. Powered outputs on these mixers are available in standard 1/4" TS, as well as the professional, twist-lock Speakon-compatible variety.

## Small, Simple, Superb

Smaller, more intimate events call for the ultra-compact and lightweight PMP530M (9.5 lbs/4.3 kg), easy-to-use 5-channel, 300-Watt powered mixer. The PMP530M is the most efficient and affordable powered mixer for the job, and can even be used as a pure analog mixer – or a pure power amplifier. With its high-quality mic preamps, 24-bit Multi-FX processor, and 7-band graphic EQ with our FBQ Feedback Detection System – the PMP530M makes it easier than ever to lend exceptional sound quality to all kinds of public performances.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Group** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous **3-Year Warranty program**.
